ACADEMY DIRECTOR'S MESSAGE

"SHFE Academy is committed to strengthening a resilient and sustainable Safety, Health, Fire and Environment (SHFE) culture across industries and communities. Through industry-focused, practical, and outcome-driven training, we support organisations in enhancing safety awareness, emergency preparedness, and operational resilience.

As risks and operational challenges continue to evolve, SHFE Academy remains dedicated to investing in people, knowledge, and collaboration to deliver safer, stronger, and more sustainable outcomes for the future."

Mixley Kinsin

Academy Director,
SHFE Academy

TECHNICAL ADVISORS' MESSAGE

"As Technical Advisors to SHFE Academy, we offer guidance and strategic perspectives to support the Academy's direction in line with current industry demands. Drawing from our extensive experience in Safety, Health, Fire, and Environment (SHFE), we contribute insights that strengthen the Academy's relevance, quality, and responsiveness to evolving industry needs.

Our role is to provide direction, share best practices, and offer informed perspectives that support continuous growth and alignment with industry expectations. While we guide and advise, the implementation and delivery of all programmes remain under the full responsibility of SHFE Academy."

COMPANY PROFILE

1. SHFE ACADEMY

- **Company Name**

SHFE Academy PLT

- **Registration Number**

202504002566 (LLP0044075-LGN)

- **Origin & Legal Status**

A company duly registered in Malaysia

2. OFFICES & OPERATIONS

- **Head Office**

Kota Kinabalu, Sabah

(Primary focus on environmental training and sustainability programmes)

- **Operational Branch**

Sipitang, Sabah

(Focused on safety, health, and fire training for high-risk industrial operations and workplaces)

- **Tagline**

“SHFE Today, Safe Tomorrow”

3. COMPANY BACKGROUND

- SHFE Academy is a Malaysian-based organisation dedicated to the development of awareness, best practices, and a professional culture in the field of Safety, Health, Fire, and Environment (SHFE). The academy was established to support industry needs through the delivery of structured and outcome-driven programmes, including training, awareness initiatives, and seminars.
- SHFE Academy operates as a professional training provider in collaboration with experienced facilitators and industry practitioners, particularly from the safety, health, fire and environmental sectors. This collaborative approach ensures that all programmes delivered are practical, relevant, and aligned with current industry requirements and workplace safety practices.

4. VISION

- To be Malaysia's trusted academy in advancing Safety, Health, Fire and Environment practices across industries.

5. MISSION

- To enhance employees' awareness of safety, health, fire prevention, and environmental stewardship.
- To provide accessible platforms for training, seminars, and community outreach programmes.
- To deliver interactive and practical programmes suitable for diverse industries.
- To support national efforts in building safe, healthy, and sustainable communities.
- To support organisations and communities through structured training delivery, advisory support, and effective training logistics management.
- To strengthen SHFE awareness through the development of quality learning materials, reference resources, and professionally branded educational merchandise.

6. CORE SERVICE SCOPE

6.1. Safety, Health & Fire Programmes

- SHFE Academy delivers risk-based Safety, Health and Fire training programmes for high-risk industrial environments, serving industries across Sabah, Labuan, and Sarawak.

Programme Title	COD
• Emergency Response Team (ERT)	SHFE/ERT
• First Aid (Emergency Response Team)	SHFE/FA
• HAZMAT First Response	SHFE/HFR
• Fire Watcher Safety	SHFE/FWS
• Fire Extinguisher Handling	SHFE/FEH
• Water Survival (Industrial & Coastal Environment)	SHFE/WS

* Certificate validity is determined based on workplace risk level, operational exposure, and programme scope.

6.2. Environment Programmes

- SHFE Academy delivers environment-focused programmes centred on Natural Capital and Ecosystem Services, Nature-positive development across Sabah and the wider region:

Programme Title	COD
• Natural Capital & Ecosystem Services: Building a Viable Conservation Economy	SHFE/NCES

7. TRAINING OPERATIONS & LOGISTICS SUPPORT

- Management and coordination of training programmes, workshops, and seminar delivery.
- Development and provision of structured training materials, modules, and learning resources.
- Coordination of facilitators, training venues, and industry- or project-specific training requirements.

8. OPERATIONAL APPROACH (RELEVANT TO SOGIP)

To support the operational and training needs of industries within the Sipitang Oil & Gas Industrial Park (SOGIP), SHFE Academy adopts a flexible, cost-effective, and industry-focused operational approach, which includes:

- Delivery of public programmes and customised in-house training.
- Utilisation of client-provided facilities or suitable rented training venues, where applicable.
- A phased simulation approach, including progressive development towards scenario-based and applied training supported by appropriate facilities.
- Training delivery led by SHFE Academy's experienced trainers, with support from industry experts and guest facilitators where required.

9. FUTURE TRAINING FACILITIES

Comprehensive training facilities are planned for **phased development** to strengthen **practical learning**, support **scenario-based exercises**, and enhance **operational readiness** for industries in and around the **Sipitang Oil & Gas Industrial Park (SOGIP)**. These facilities are intended to support applied training and progressive simulation development. The planned simulation and training facilities include:

- Breathing Apparatus & Smoke Simulator
- Confined Space Simulator
- Compartment Fire Behaviour Training (CFBT) Simulator
- Sewer Simulator
- Oil Spill & Gas Release Simulator
- Hazardous Material (HAZMAT) Spill Simulator
- Fire Extinguisher Simulator
- Fire Alarm Panel & Fire Pump Set Simulator
- Water Simulator
- Training Hall (30–50 participants)
- Open Training Area

** Facility development and implementation will be carried out in phases, subject to approvals, operational priorities, and project requirements.*

10. SUPPORT ACTIVITIES & SAFETY BRANDING

- SHFE Academy provides professionally branded safety merchandise to support safety awareness campaigns and visual safety communication. These activities complement training programmes and do not replace statutory requirements, regulatory obligations, or organisational safety policies.

Operation and Lead Trainer: Mr. Emran Bin Idris

Mr. Emran Bin Idris is a former senior officer of the Fire and Rescue Department of Malaysia with 34 years of experience in Operations, Safety, Investigation, and Training Division. He is a HRD Corp-certified Train-the-Trainer (TTT), a DOSH-certified Occupational Safety and Health (OSH) Coordinator, and holds specialised instructional competency in Compartment Fire Behaviour Training (CFBT), with additional qualifications in Rescue, HAZMAT, and Basic Life Support.

He currently serves as Operation and Lead Trainer at SHFE Academy. In the fields of Safety, Health and Fire, training delivery may also be conducted by professional trainers Mr. Stefanus or Mr. Kennyide, under the Academy's training framework.

11. CLOSING STATEMENT – SHFE ACADEMY

SHFE Academy is a Malaysia-based training organisation dedicated to Safety, Health, Fire and Environment (SHFE), delivering practical and industry-aligned programmes to support organisational capability and operational readiness. Guided by experienced leadership and supported by technical advisory input, our programmes are designed to meet real-world industry needs.

SHFE Academy aspires to be a trusted partner in strengthening safety culture, emergency preparedness, and long-term sustainability across industries and communities.
